

**City of Norman Bicycle Advisory Committee**  
**Minutes for June 2012 Meeting**  
**June 11, 2012 6:30 pm**  
**City of Norman Municipal Complex**  
**201 West Gray, Study Session Room**

**1. Roll Call--6:40pm**

Members present: Gary Miller, Helen Robertson, Greg Heiple, David Huddleston, Steve Vasiloff, Lee Crumholz , John Joyce

Ex-officio members present: James Briggs, Angelo Lombardo

Guests: Marcus Smallwood (Norman Police Department)

**2. Approval of May 2012 meeting minutes.**

Minutes were accepted and approved

**3. Agenda**

**A. Modifications to Norman Bike Routes**

An updated route map was circulated to board members. This map is the newest published bicycle route map. It serves as the document of record, reflecting all current routes. The map is available for download at the City of Norman website. The committee discussed previous analysis of platting maps for several new residential development projects currently underway. The committee tabled that analysis during 2012 1<sup>st</sup> Quarter. The committee agreed to revive the analysis. Committee members will be individually assigned to review the platting, and offer recommendations for inclusion of new routes within those developments to add to the existing network of authorized/published bicycle routes.

**B. Transportation Bond Issue**

Gary Miller is representing cyclists via his membership on the recently formed bond issue committee. He advised committee members that the bond issue (scheduled for August 25<sup>th</sup> vote) would, if passed, be eligible for substantial Federal matching funds. He advised members to familiarize themselves with the elements of the bond issue and to help identify groups of constituents within the community who may provide an opportunity for the Bond Issue Committee to present the bond issue proposal at presentations to said groups.

**C. Additional Bike Lane Striping**

The committee discussed fundamental changes in traffic infrastructure that have occurred since the original publication (in 1996) of the city's first bicycle master plan. The committee agreed this plan should be updated (or possibly superceded) by a new bicycle plan, to be included within the comprehensive transportation plan. This will ensure the bicycle plan properly aligns with larger transportation infrastructure efforts undertaken by the city.

**D. Urban Trail System**

No updates since May meeting.

**E. Other Status Reports**

**Enforcement**

**Education**

**Campus, OU Bicycle Master Plan**

### **New Business**

Two new members, Steve Vasiloff (ward 2) and Lee Crumholz (ward 4) were unanimously approved for membership on the Bicycle Advisory Committee.

### **Adjournment – 7:45 p.m.**

<b>Member</b>	<b>Original Term</b>	<b>Term Begins</b>	<b>Term Ends</b>	<b>Ward</b>	<b>Liaison</b>
